Interview With a Belle. "I beg to be excused. I don't belong to this roundup. I'm off my reserva-

That was the peculiar reply a very stylish and remarkably handsome young woman made when a society reporter struck her for a description of gowns, which must have been "fetching" indeed with that girl's splendid brunette beauty inside of them.

"Oh, well, most everybody is strange here now," was the society reporter's cheerful response. "We are very anxious to have all the notable people".

"That's it. I'm not a 'notable,' " said the brisk young woman. "Dad's not an officeholder nor an office seeker. He's just a plain, everyday cattle baron, and we're not in it this trip We're stampeded."

"Stampeded!" "Si, we don't feed with these kind of cattle, you know. Our crowd is 'R.; these people all belong to the 'D.' dash range, and they've turned off the water, burned all the grass, cut all our fences and stampeded us in great shape. Four years from now if you happen to be around here you will find the national range in the hands of the old bosses again, and I'll have no objection to giving you a description of my harness, Just now I'm a stray and object to being bunched with this outfit."

The objections must have been intelligible to the society reporter, for they were accepted, and the daughter of the 'plain, everyday cattle baron" was excused from being "branded" as mixing with a breed of political "cattle" by which she declared she had been "stampeded ' - Washington Star

HALE METHOD OF PAINLESS FILLING.

### DEPARTURE IN DENTISTR

DR. PORTER HAS RETURNED for the purpose

Method of Painless Filling."

OFFICE IN STEELE BUILDING,

Absolutely painless without Chloroform, Gas, Ether or Cocaine.

Here are a Few Testimonials from Citizens Who have Already Tried the Method:

Dr. Porter—Dear Sir:—It affords me pleasure to say that the Hale method of painless filling opens a new era in the dental world. After having several very sensitive cavities filled by you with gold and amalgam with gratifying results, I am of the opinion that the method is far beyond competition.

PATRICK HENRY.

Dr. Porter—Dear Sir.—In answer to your request for my candid opinion as to the Hale method of painless filling, I beg to state that I went to one of Dr. Leek's finest operators in San Francisco, and he filled several teeth for me with more or less pain; but when he came to the one you have just filled, it was simply impossible for me to endure tile torture, consequently I asked him to stop, which he did. I thought I would be obliged to have the tooth extracted. I wish to state that in five minutes after you commenced to operate there was positively no pain; it felt just as it you were cutting a piece of wood. I am so highly pleased with the manner in which you filled the tooth that I feel it but just to express my appreciation of the method. It is all you claim for it.

CHARLES HOPE.

Dr. Porter—Dear Sir:—I have had teeth extracted before by so-called painless methods, but you are the only operator who has extracted teeth for me without pain. Your method of extracting surpasses my most sanguine expectations.

MRS. H. PRENTISS.

Dr. Porter—Dear Sir:—It gives me great pleasure to state that I am ther oughly convinced of the excellence of your method. I expected to suffer dreadfully having the cavity filled, as it was the worst one I had to have done. In about five minutes after you began to work on it I was satisfied that it would not hurt, which it did not during the entire operation. The tooth you extracted is one I have been dreading for eight years, and after consulting dentists in Sacramento, who advised me not to have it removed, as the ordeal might prove injurious to my health and also disfigure my face. You extracted the tooth without a particle of pain, and I will have no further dread of the dental chair, providing I can obtain the Hale Method.

Dr. Porter-Dean Sir:-After using Hale's Painless Method as administered by you in the extraction of teeth, I can bear testimony that the results are satisfactory, and that teeth can be extracted painless by said method.

Respectfully yours,

HENRY J. NEYLAND.

Dr. Porter-Dear Sir:-I believe that the Hale Painless Method of filling is destined to lead the world in its especial field of usefullness. I am particularly impressed with it, owing to the fact that one does not lose consciousness while having teeth filled, and at the same time does not suffer a particle of pain. You are at liberty to refer any one who contemplates having sensative feeth filled to me.

SATURDAY, APRIL 29, 1893.

CARLISLE'S OPPORTUNITY.

That Secretary Carlisle is not in accord with President Cleveland on the silver question is generally understood at Washington. In congress Carlisle voted for free coinage and as secretary he considers it his duty to redeem some of the treasury notes issued for silver bullion in standard dollars. The law authorizes him to do so and the platform which Cleveland indorsed and on which he was elected "holds to the use of both gold and silver as the standard money of the country, and to the coinage of both gold and silver without discriminating against eitheir metal or charge for mintage." If he will now adhere to the strict letter of the law, which leaves it discretionary with him to pay out gold or silver and to have coined from time to time at the mints sufficient silver to redeem treasury notes, the powers of Wall street and In New York Yesterday Which Followed the influence of the administration cannot defeat him for president of the By Associated Press.] United States. He may be compelled to leave the cabinet, as it is plainly apmetropolis glorified Columbus upon parent that the administration does the element which bore him to our own not intend to abide by the clause of the shores. To-day the glorification is national Democratic platform above transferred to the land of the New quoted or exercise the discretionary World which he discovered. The power given it by act of congress in streams of martial music have filled treasury notes, but that would only mium of the ear-splitting whistles and

The drunken in coining and issuing silver he will be liste was as completely occupied by a and enraged bookmaker was finally United States. The act would raise the direct issue, Wnether gold, and gold Wall street or the people control the

financial policy of the United States It has been asserted by such promment Democratic papers as the St. Louis break the back of the Democratic party across the Alleghanies, and it is now in the power of Secretary Carlisle to precipitate the issue. If he issues silver and orders the bullion now stored settle the silver question in a few months, and if the president objects and he leaves the cabinet he will be a much bigger man than Cleveland and become, at once, the leader of a party that will hurl Wall street from power in the congressional elections next year and consign the goldbugs to oblivion at the next presidential election.

### IT MLANS RUIN.

condemns its financial policy and pre- their rear The arts of peace had dicts that Missouri will cast its next electoral vote for a free coinage candidate if Wall street ideas prevail in Cleveland's administration. Its arguments for free comage cannot be combatted. It advocated the election of Cleveland, believing that his financial policy would be more favorable to silver than Harrison's, and now seems to regret that Missouri and the southern states generally did not support General Weaver. In a recent issue it says:

"By what logic is a note that is a silver certificate at the issuing window of the treasury treated as a gold certificate at the next window? If silver is good enough to issue these certificates on, how and why does it, immediately after the issuance, cease to be good enough to take them up in? How long can any sensible person think the people will stand it if every ounce of silver deposited is presumed in the treasury policy to create a debt against the people which they must meet by borrowing gold and paying interest on it? It may be possible for some to conceive a the review. He drove to the stand, but more absurd or a more ruinous policy the parade was late and he was comthan this, but we are free to confess that we cannot. It seems to us that, if it is followed out to its logical conclusion, it means rum."

The regood guess in its forecasts. The reports sent out by telegraph strike wide did not exist on the earth before. Coming with the waters and other matter that fell at that time, these life germs of the mark all the time. Warmer weather has been predicted for Nevada every day for the past week, but the prediction has not been verified, in fact that tell at that time, these me germs were adapted to thrive and come to maturity in the waters of their time and this had led biologists to believe that they originated in the oceans. Geologists know that universal changes accounted at great intervals both in instead of getting warmer it gets colder. ges eccurred at great intervals both in instead of getting warmer it gets colder.

It is a good idea to "copper" the San the waters and in the organisms and in discussing Noah's and previous floods.

FOSTER'S FORECAST.

May Will Bring a Change in the Weather -Whence Came Animal Life.

Copyrighted 1893 by W. T. Foster St. Josephs, Mo., April 28 .-- My last bulletin gave forecasts of the storm 27th to May 1st and the next will reach the Pacific coast about May 2d, cross the Western mountains by the close of president will be elected in 1896. the 3d, the great Central valleys from states about the 7th.

temperatures of April will not occur this region. in May. The month will average cool for the season. Most places where drouth occurred in April will have of the Truckee school, received the fair rains and much better crop weather in May.

The cool wave will cross the Western mountains about the 5th, the great the daughter of C. F. McGlashan. Central valleys about the 7th, and the Eastern states about the 9th. The second storm wave of May will reach the Pacific coast about the 8th, cross the Western mountains by the close of the about the 13th. This disturbance will be of more than usual energy about the 11th and 12th in the Mississippi val-

The cool wave following will cross the Western mountains about the 11th. the great Central valleys about the 13th and the Eastern states about the 15th. Some danger of frosts in the northern latitudes from this cool wave.

WHENCE CAME THE NEW SPECIES? Many evidences go to prove that the azoic rocks in which no animal fossils are found constituted the surface of our earth when it was a comet. These azoic rocks show unmistakable evidences of great heat and yet they are stratified and therefore laid down in water. In North America the azoic rocks come to the surface nearly all around Lake the great lakes and in northern New

The signs of heat left on these azoic rocks could not have come from volcanic or other heat within the earth for the effects are on the outside of stratified rocks. The elongated orbits of comets will account for all this. When to perihelion-very near the sun-its immense velocity caused great friction against the suns electrosphere and it should be laid along the course of groes, were hanged at Bonham, Texas, the upper atmosphere, the result be- the sciatic nerve until it covers all the yesterday, in the presence of 10,000 ing similar to what we see in the met- painful spots; it can be kept in place people. eor and acorlite, especially in the latter by means of a bandage applied to the with its long flery tail streaming be- leg and to the lower portion of the hind. Or in comets when their tails body." are driven off or floated away from the sun. Thus the azoic rocks of the earth in Virginia city next Tuesday, and after were scorched by frictional heat and remaining on the Comstock for about these rocks constitute the foundation upon which have been piled the great mass of debris which geologists have examined. "In that bottle." designating the one on the table "What's in the box?" asked the friend picking up both and reading the labels "Keeneen," was the reply

young man, nosing around

"What's the difference?" was the some what astonished query The sick man laughed

Well, that in the bottle i got at wholesale and paid 25 cents for 200 grains, and that in the box I bought at retail and paid 25 cents for 25 grams Do you catch on?"

The friend gave a little whistle.
"I presume," he said, "eyether will do," and gave the patient one of each Detroit Free Press.

Tiger Skins Not Popular In One Family. Mrs. Richard Croker of New York city tells some funny stories of her ex periences with people who have heard of Tammany tigers. One day a country man came to the Crokers' Richfield Springs home to do some odd jobs. Mrs Croker noticed him peering around the floors, and about the time she began to grow suspicious of the man he asked "Where are the tigers?"

'Tigers! What tigers?' Why, the folks around here say you tept tigers all on the floor." Mrs. Croker had to smile, but earnestly

told him the tigers were out at pasture The man looked reheved. The fact of it is tiger skin rugs are not popular in the Croker mansions. - Washington Post A Novelist Turns.

D. Christie Murray, the English novel ist, turns on his critics in a brief note to a London paper to demonstrate that truth is stranger than fiction. Of a reviewer's charge that an episode in one of his novels was "wholly mcredible," Mr. Murray says. "I got that story on the spot and had full proof of its accu racy. In fact, I built the novel on that genuine bit of history which your re viewer thinks incredible."

Successful Frauds. It is over two years since 17 Egyptian mummies in the old museum of Berlin proved to be the bodies of fellows who a short time ago took their beer in the saloons of the capital of the empire of William II It is now believed that there is not a museum in the world that has not been imposed upon by frauds of this kind.—St. Louis Republic

# 'August Flower"

What is It For?

petually on your little boy's lips. And he is

tinually cry from the cradle to the grave. So with this little introductory sermon we turn and ask: "What is August Flower for?" As easily answered as asked: It is for Dyspepsia. It is a special remedy for the Stomach and Liver. Nothing more than this; but this brimful. Dyspepsia. We know it will. We have reasons for knowing it. Twenty years ago it started in a small country thought. It is honest, does one thing, and does it right along-it

park near the Giant and Giantess geysers, also near the Great Castle geyor. There have been openings in the earth through which came clouds of state of smoke, it was hard to tell which. V. non these eruptions commercial enters, wi

The Yellowstone Park Earthquakes.

ists who have a winter camp in the Na-

tional park gives particulars of the earth-

quakes which were reported a week ago

This letter is by way of Beaver can-

yon, Ida., and says that for the last two

weeks the subterranean noises have been

distinct, and there have been nearly ev-

eryday eruptions in different parts of the

from Livingston, Mon.

A letter received from a party of tour-

horses of the vicinity showed - . . in easiness and would go wandering about with the evident idea of escape from the neighborhood

The few people who were these west at first badly scared, but finally made up their minds that it was no. 'mag more than an aggravated explosion from the shooting geyser However, the openings in the earth were something ent. 'y new and indicated that the shock e c erienced was of earthquake origin. Cometimes there would be rumbling sound and jarring of the earth for fully 10 acc onds before the explosion came, and the explosions were sufficiently strong to percel tibly jar the cooking utenabout the camp. - Cor. Chicago Tribune

Lord Safisbury's House at the Pair. One of the most interesting contributions from England to the Chicago exhibition is to be a reproduction of what is perhaps the finest example in this country of sixteenth century decorative wood carving. This is the famous banqueting hall at Hatfield House, the Hertfordshire seat of the Marquis of Salisbury. A facsimile, exact in everything but size, has been reproduced by Messrs. Hampton & Sons of Pall Mall. The reproduction, permission to execute which long—the original being 60—20 feet broad and 23 high, the whole of the internal Wheeler's), \$1,100. surface being constructed of beautifully carved oak, cut from the solid block and shaded to the deep, rich tint of the antique work by the process known as

"fuming."
The Cecil coat of arms, which has also been cut from a solid block, and the floor, like the original, will be composed of white and black marble. Messrs. Hampton & Sons will complete the ensemble by furnishing the hall with chairs, tables and armor of the Elizabethan period, and had time allowed replicas of the tapestry at Hatfield House would have been supplied. As it is, tapestry will be used as near as possible like the original.-London Standard

signed. Apolonaris decided that he would follow suit and forthwith forwarded his resignation to Washington.

Secretary Carlisle was impressed with the style and diction of Apolonaris' letter of resignation and telegraphed to Colonel Weber asking him why the inspector had resigned at this particular time and what sort of a tellow he is. "Don't know," was Colonel Weber's

efficient officer," was his answer to the second Thereupon Secretary Carlisle returned Apolonaris' resignation, inclosing with it a polite note requesting him to remain
